

FAIRBANKS SOIL & WATER
CONSERVATION DISTRICT

Pop-Up Community Composting: Bring Your Food Scraps!

Got kitchen scraps piling up? Turn your food waste into a rich, healthy soil amendment instead of sending it to the landfill! We are hosting a special pop-up composting drop-off station, and we want your vegetable peelings, coffee grounds, and more!

Pick up your 3-gal. buckets at Fairbanks Soil & Water Conservation District at 590 University Ave. (or at the pop up events themselves to have a bucket ready for next time) and bring your filled buckets to one of our Drop Off Events at Green Star!

Dates: Monday, October 5th from 12:00p.m. to 4:00p.m.
Monday, October 12th from 12:00p.m. to 4:00p.m.

Stay tuned for spring 2027 pop-up dates!

Drop Off Location: 2134 Texaco Ave, Fairbanks, AK 99701

Food Waste will be taken to the new commercial composter
Earth Flow IM-40 at GHWM!

***GHWM is unable to receive personal food waste donations at their site. Fairbanks Soil & Water and Green Star will resume pop-up drop offs in the spring of 2027.
